SL60 D

Superior Performance in Challenging Conditions

The Giant tracked pruning platform is specially designed for challenging and sloped terrain conditions. Its automatic leveling system maintains the platform's horizontal position even on slopes of up to 10° to the left or right, ensuring maximum stability and operator safety.

Automatic Leveling on Sloped Terrain

Giant automatically detects and levels slopes of up to 10° to the left and right on the horizontal axis. This allows operators to work safely and comfortably even on uneven ground.

High Reach Capacity

With a 1-meter entry height and a maximum working height of 6 meters, it provides easy access to hard-to-reach areas.

Powerful Engine

Equipped with an 18 kW Stage V Yanmar or Kubota diesel engine for high efficiency and durable performance.

Mobility

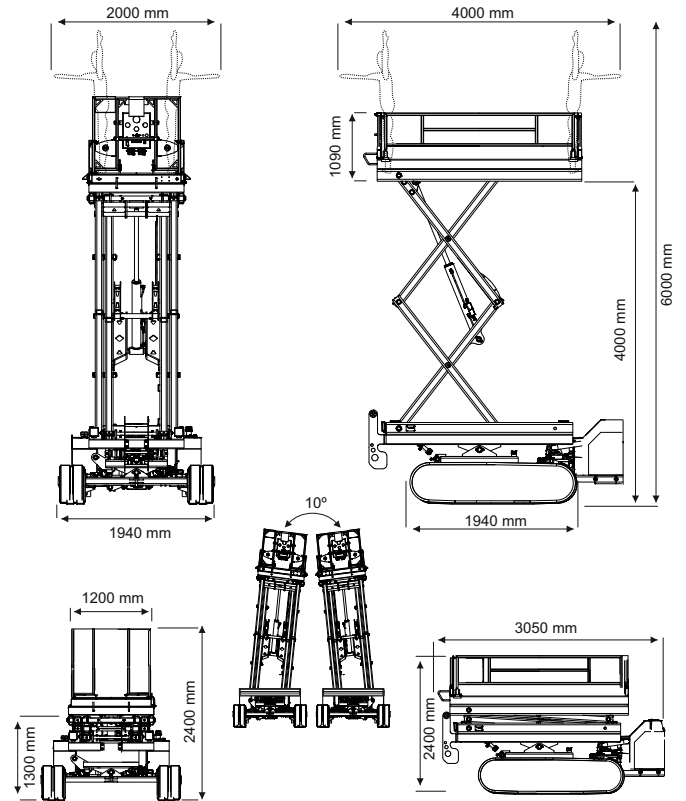

With a maximum driving speed of 4 km/h, it offers fast and efficient maneuverability on the job site.

Robust and Stable

With a total weight of 2000 kg, it delivers strong ground grip and exceptional stability.

TECHNICAL SPECIFICATIONS	SL60 D
Platform Capacity	1200 kg.
Platform Closed Dimensions (Width/Length)	1200 x 2400 mm
Maximum Working Height (Personnel)	6000 mm
Maximum Platform Height	4000 mm
Travel Height	2000 mm
Engine	Yanmar / Kubota
Fuel Type	Diesel
Fuel Tank	50 l
Oil Tank	50 l
Rubber Track	Standart
Basket Leveling	Operator / Automatic
Front and Rear Tilt	+ - 10°
Left and Right Tilt	+ - 10°
Hydraulic Control Valve	Mechanic
Direction Control System	Hydraulic Joystick
Dual-Speed Drive System	Yes
Work Light	Yes
Travel Speed	4 km/h
Emergency Stop at Ground Level	Yes
Slope Control / Automatic Leveling	Yes
Climbing Ability	20°
Side Travel	10°
Length	3050 mm
Width	1940 mm
Total Weight	3250 kg
