

## HYDROMOTOR

GROUD SCREW

### INTRODUCTION

The driving force behind the high performance of Mazaka Ground Screw Machines is the high-torque hydraulic motor system. Even under tough ground conditions, this system delivers maximum torque and precise control, ensuring that ground screws are applied quickly, safely, and accurately.

#### Key Features

**High Torque Output** Maintains continuous and powerful screwing performance, even in dense and challenging soil types.

**Precision Control** Rotation speed and direction can be instantly adjusted by the operator — for maximum efficiency and minimal error.

**Durable Construction** Engineered for reliability and long life, even under heavy loads and extreme operating conditions.

### TECHNICAL SPECIFICATIONS

PRODUCT CODE	HYDROMOTOR	RPM
151.01.15076	1500 NM	60 – 80
151.01.21151	3000 NM	30 – 60
151.01.16332	6000 NM	30 – 60
151.01.16336	8000 NM	15 – 30
151.01.21152	12000 NM	10 – 20
