ASPHALT CRACK FILLING EQUIPMENT **DRAGON D10**

TECHNICAL SPECIFICATIONS

Fuid Capacity	47 lt.
Steel Thickness	2 mm
Fuel Type	Propane
Fuel Pressure	2 bar
Agitation Type	Manuel
Weight	60 kg
Widht (A)	600 mm
Height (B)	900 mm
Lenght (C)	1200 mm

- Rapidly melts hot rubberized crack sealant, bringing the material quickly to application-ready condition.
- Allows walking-speed application, enabling fast crack repair over large areas.
- Compact design allows easy transport by vehicle and quick setup on site.
- Height-adjustable operator handle for improved ergonomics and control.
- High-sealing performance safety valve for safe and reliable operation.
- Powerful propane burner system heats the sealant to working temperature in a short time.
- Balanced heat distribution ensures uniform and consistent melting of the material.
- Melting and application can be easily performed by a single operator.
- Industrial-grade components minimize maintenance requirements and ensure long service life.
